

RESPIRATORY SPECIAL: QCMD Coronavirus Outbreak Preparedness EQA Pilot Study.

Cat. No. QAV204214 (Code: CVOP20)

Due to the current Coronavirus Disease 2019 (COVID-19) outbreak situation, QCMD offers a pilot EQA scheme for coronaviruses which will include inactivated coronavirus SARS-CoV-2.

The QCMD 2020 Coronavirus Outbreak Preparedness EQA Pilot Study (CVOP20) will offer laboratories, that have recently set up specific molecular diagnostics, the opportunity to assess the performance of their assays against international peer groups. The quality assessment will focus on specificity and sensitivity to current clinically relevant coronaviruses.

Please go to www.qcmd.org to register via your ITEMS participant profile or to contact us for more details via the 'contact us' page.
